

**CME INFORMATION**  
**CVI 2020 Webinar Series: Complication Management**  
**October 1, 2020 – October 1, 2021**

**TARGET AUDIENCE**

This activity has been designed to meet the educational needs of cardiologists, surgeons, internists, trainees, investigators, and allied health care workers who participate in the care of patients with coronary, peripheral, and structural cardiovascular diseases.

**EDUCATIONAL GOAL**

The goal of this activity is to provide participants with knowledge on how to evaluate and treat patients with coronary artery disease, peripheral vascular disease, and valvular, structural heart and arrhythmic heart disease.

**LEARNING OBJECTIVES**

- Describe various complications of percutaneous coronary interventions
- Examine strategies to prevent complications
- Discuss complication management approaches and algorithms
