THURSDAY, JULY 29

How to Best Treat Coronary Calcification in 2021

Moderator:

Sunil Rao, MD

Panelists:

Emmanouil Brilakis, MD; Faisal Latif, MD; Perwaiz Meraj, MD; Ashish Pershad, MD; Sheila Sahni, MD

8:30	How to use intravascular imaging to guide treatment of calcified lesions	<i>Ziad Ali, MD</i>
8:35	<i>Panel Discussion</i>	
8:45	When and how to use rotational atherectomy	<i>Jaikirshan Khatri, MD</i>
8:50	<i>Panel Discussion</i>	
9:00	When and how to use orbital atherectomy	<i>Khaldoon Alaswad, MD</i>
9:05	<i>Panel Discussion</i>	
9:15	How to use intracoronary lithotripsy	<i>Robert Riley, MD</i>
9:20	<i>Panel Discussion</i>	
9:30	The stent will not expand: what next?	<i>Poonam Velagapudi, MD</i>
9:35	<i>Panel Discussion</i>	
9:45	Case presentation	<i>Mitul Patel, MD</i>
9:50	<i>Panel Discussion</i>	
10:00	Break	

Succeeding in Complex PCI

Moderator:

Ajay Kirtane, MD

Panelists:

Wissam Jaber, MD; Paul Poomipanit, MD; Yader Sandoval, MD; Binita Shah, MD

10:30	Contrast-induced acute kidney injury; how to prevent and treat	<i>Lorenzo Azzalini, MD</i>
10:35	<i>Panel Discussion</i>	
10:45	CTOs with ambiguous proximal cap	<i>William Nicholson, MD</i>
10:50	<i>Panel Discussion</i>	
11:00	Angiography + PCI in TAVR patients	<i>Mauricio Cohen, MD</i>
11:05	<i>Panel Discussion</i>	
11:15	Physiology in complex PCI	<i>Arnold Seto, MD</i>
11:20	<i>Panel Discussion</i>	
11:30	Recurrent in-stent restenosis	<i>M. Nicholas Burke, MD</i>
11:35	<i>Panel Discussion</i>	
11:45	SCAD	<i>Jacqueline Saw, MD</i>
11:50	<i>Panel Discussion</i>	
12:00	Afternoon Symposia	

TRACKS ■ CORONARY ■ PERIPHERAL ■ STRUCTURAL ■ PODIATRY

NOTE: All presentations are in Eastern Time (ET)

DVT and PE Interventions: Illustrative Cases to Highlight Key Take Aways

Moderators:

Jay Giri, MD; Ethisam Mahmud, MD

Panelists:

Vikas Aggarwal, MD; Yukanka Castro-Dominguez, MD; Kenny Rosenfield, MD

1:30	Acute DVT patient selection and approach	<i>Vikas Aggarwal, MD</i>
1:38	<i>Panel Discussion</i>	
1:45	PE: Clot Burden on CTA, should it drive therapy?	<i>Jay Giri, MD</i>
1:53	<i>Panel Discussion</i>	
2:00	Decision steps and device selection for Thromboaspiration in PE	<i>Kenny Rosenfield, MD</i>
2:08	<i>Panel Discussion</i>	
2:15	Hemodynamic support during PE interventions: my strategy	<i>Yukanka Castro-Dominguez, MD</i>
2:23	<i>Panel Discussion</i>	
2:30	CTEPH interventions: Have we made real progress?	<i>Ethisam Mahmud, MD</i>
2:38	<i>Panel Discussion</i>	
2:45	Venous Interventions: Cases I will always remember	<i>Andrew Klein, MD</i>
2:53	<i>Panel Discussion</i>	
3:00	Break	

Aortic Valve Innovations and Cases

Moderator:

Michael Reardon, MD

Panelists:

Rahul Sharma, MBBS; Paul Sorajja, MD; Alan Zajarias, MD

3:30	Top 5 innovations in aortic valve surgery	<i>Vinayak Bapat, MBBS</i>
3:35	<i>Panel discussion</i>	
3:45	Basilica techniques for success	<i>Adnan Chhatriwalla, MD</i>
3:50	<i>Panel discussion</i>	
4:00	Favored approaches for bicuspid disease	<i>David Rizik, MD</i>
4:05	<i>Panel discussion</i>	
4:15	Valve choice made the difference	<i>Steven Yakubov, MD</i>
4:20	<i>Panel discussion</i>	
4:30	Optimization of resource utilization for TAVR	<i>Guilherme Attizzani, MD</i>
4:35	<i>Panel discussion</i>	
4:45	Novel success with balloon-expandable technology	<i>Susheel Kodali, MD</i>
4:50	<i>Panel discussion</i>	
5:00	Evening Symposia and Live Case	

NOTE: All presentations are in Eastern Time (ET)

FRIDAY, JULY 30

Mitral Innovations and Cases

Moderators:
Gagan Singh, MD; Molly Szerlip, MD

Panelists:
Paul Sorajja, MD; Brian Whisenant, MD

8:30	Top 5 surgical innovations for mitral disease	Gorav Ailawadi, MD
8:37	Panel Discussion	
8:45	Transfemoral TMVR - it's here	Firas Zahr, MD
8:52	Panel Discussion	
9:00	Candidates for percutaneous annuloplasty	Jason Rogers, MD
9:07	Panel Discussion	
9:15	Challenges in severe mitral annular calcification	Bassem Chehab, MD
9:22	Panel Discussion	
9:30	My best case of the year	Azeem Latib, MD
9:37	Panel Discussion	
9:45	Ultimate mitral repair clinical experience	Brian Whisenant, MD
9:52	Panel Discussion	
10:00	Break	

Ultimate Structural Cases

Moderators:
Jacqueline Saw, MD; Paul Sorajja, MD

Panelists:
Azeem Latib, MD; Matthew Price, MD; Mark Ricciardi, MD

10:30	Snare, retrieval, and a save	Jacqueline Saw, MD
10:37	Panel Discussion	
10:42	Successful wiring in structural heart disease	Ethan Korngold, MD
10:49	Panel Discussion	
10:54	Tricuspid transcatheter therapy	Alan Zajarias, MD
11:01	Panel Discussion	
11:06	Clinical regret and redemption	Jonathan Schwartz, MD
11:13	Panel Discussion	
11:18	An imaging save	Richard Bae, MD
11:25	Panel Discussion	
11:30	New boundary for transcatheter mitral repair	Gagan Singh, MD
11:37	Panel Discussion	
11:42	This year's emotional experience in structural heart therapy	Rahul Sharma, MD
11:49	Panel Discussion	
12:00	Afternoon Symposia and Live Case	

TRACKS ■ CORONARY ■ PERIPHERAL ■ STRUCTURAL ■ PODIATRY

NOTE: All presentations are in Eastern Time (ET)

Aortoiliac & FP Interventions: Case Based Demonstration of Crossing & Treatment Strategies

Moderators: Herbert Aronow, MD; Mehdi Shishehbor, DO, MPH, PhD

Panelists: Venita Chandra, MD; Sahil Parikh, MD; Shirling Tsai, MD; Thomas Zeller, MD

1:30	TASC C & D Aortoiliac Lesions: Strategies for reproducible success	Dmitriy Feldman, MD
1:38	Panel Discussion	
1:45	Perforated iliac, and how I bail myself out	Thomas Zeller, MD
1:53	Panel Discussion	
2:00	CART and rCART in FP CTO: Devices & Technical details for execution	Chris Metzger, MD
2:08	Panel Discussion	
2:15	Should I make a total switch from BMS to DES?	Prakash Krishnan, MD
2:23	Panel Discussion	
2:30	Is DCB now my default strategy?	Peter Schneider, MD
2:38	Panel Discussion	
2:45	FP & BTK calcification: Debulking solutions	Sahil Parikh, MD
2:53	Panel Discussion	

3:00	Break	
	How to best treat coronary bifurcations in 2021 Moderator: Kevin Croce, MD Panelists: Mazen Abu Fadel, MD; Farouc Jaffer, MD; Kathleen Kearney, MD; Michael Luna, MD; Evan Shlofmitz, MD	Limb Salvage, Functional Amputation, Wounds and Podiatry Moderator: Rose Lumare, DPM Panelists: Peter Crisologo, DPM; Matthew Johnson, DPM; Bala Ramanan, MD; Jennifer Stoiber, DPM; David Truong, DPM
3:30	Algorithmic approach to bifurcations Rajiv Gulati, MD	Case 1: Surgical options in osteomyelitis Matthew Johnson, DPM
3:35	Panel Discussion	Panel Discussion
3:45	Provisional stenting: step-by-step Arasi Maran, MD	Case 2: Success of limb salvage in patients with PAD David Truong, DPM
3:50	Panel Discussion	Panel Discussion
4:00	TAP and culotte: step-by-step Michael Luna, MD	Case 3: Lower extremity flaps and microvascular surgery Bala Ramanan, MD;
4:05	Panel Discussion	Panel Discussion
4:15	DK crush: step-by-step Allison Hall, MD	Case 4: Realistic options in patients with Calcaneal osteomyelitis Jennifer Stoiber, DPM
4:20	Panel Discussion	Panel Discussion
4:30	Imaging for optimizing bifurcation PCI Kevin Croce, MD	Case 5: Diagnostic/prognostic indicators of success in limb salvage Peter Crisologo, DPM
4:35	Panel Discussion	Panel Discussion
4:45	Physiology for optimizing bifurcation PCI Chadi Alraies, MD	Adjourn
4:50	Panel Discussion	Panel Discussion
5:00	Evening Symposia and Live Case	

Mitral Valve Symposium

Moderator: Paul Sorajja, MD

Panelists: Richard Bae, MD; Gagan Singh, MD; Molly Szerlip, MD; Firas Zahr, MD

5:00	How to choose patients with functional mitral regurgitation for transcatheter repair	Gagan Singh, MD
5:05	Panel Discussion	
5:15	Probe manipulations for optimizing imaging for success with transcatheter repair	Richard Bae, MD
5:20	Panel Discussion	
5:30	Techniques for achieving acute relief and durable reduction in MR	Firas Zahr, MD
5:35	Panel Discussion	
5:45	Strategies for practice growth and population management in MR	Molly Szerlip, MD
5:50	Panel Discussion	
6:00	Adjourn	

NOTE: All presentations are in Eastern Time (ET)

SATURDAY, JULY 31

Case Reviews of CLTI Interventions: Masters Approach to Limb Salvage

Moderators: Lawrence Garcia, MD; Mehdi Shishehbor, DO, PhD, MPH

Panelists: Kareem Harth, MD; Beau Hawkins, MD; Vikram Kashyap, MD; Peter Monteleone, MD

8:30	Endovascular approach after failed bypass	Carlos Mena, MD
8:38	Panel Discussion	
8:45	Step by Step retrograde access and intervention	Osamu Iida, MD
8:53	Panel Discussion	
9:00	No option CLTI patient	Jun Li, MD
9:08	Panel Discussion	
9:15	Mixed venous and arterial disease	Raghu Kolluri, MD
9:23	Panel Discussion	
9:30	How do I incorporate antithrombotics into my PAD practice?	Manesh Patel, MD
9:38	Panel Discussion	
9:45	CLTI Interventions: Cases I will always remember	Nicolas Shammas, MD
9:53	Panel Discussion	
10:00	Break	

Cardiovascular Innovations Case Competition Finals

Panel: Subhash Banerjee, MD; Emmanouil S. Brilakis, MD, PhD; Mehdi Shishehbor, DO, PhD, MPH; Paul Sorajja, MD

10:30	Case 1: Coronary	Debraj Das, MD
10:35	Panel Discussion	
10:45	Case 2: Coronary	Katherine Kunkel, MD
10:50	Panel Discussion	
11:00	Case 1: Peripheral	Zain Fatiwala, MD
11:05	Panel Discussion	
11:15	Case 2: Peripheral	Niravkumar Patel, MD
11:20	Panel Discussion	
11:30	Case 1: Structural	Muhammad Hammadah, MD
11:35	Panel Discussion	
11:45	Case 2: Structural	Michael Engheta, MD
11:50	Panel Discussion	
12:00	Awards Presentation	
12:00	Afternoon Symposia	

Treating Severe Coronary Calcification Symposium (CME)

Moderators: Khaldoon Alaswad, MD; Emmanouil Brilakis, MD, PhD

Panelists: Kevin Croce, MD; Kathleen Kearney, MD; Ajay Kirtane, MD

12:00	New insights on the use of orbital atherectomy in changing landscape	Ajay Kirtane, MD
12:10	Panel Discussion	
12:15	Personalized treatment of calcified lesions through intracoronary imaging	Kevin Croce, MD
12:25	Panel Discussion	
12:30	Orbital atherectomy step-by-step: ostial and long lesions, bifurcations and tips and tricks	Khaldoon Alaswad, MD
12:40	Panel Discussion	
12:45	Case Presentation	Kathleen Kearney, MD
12:55	Panel Discussion	
1:00	Adjourn
