

CME INFORMATION

CVI Webinar: The Science Behind a Valve Designed for Life December 7, 2021 – December 7, 2022

TARGET AUDIENCE

This activity has been designed to meet the educational needs of interventional cardiologists.

EDUCATIONAL GOAL

The goal of this activity is to provide participants with education regarding the treatment options for patients suffering from severe Aortic Stenosis.

LEARNING OBJECTIVES

- Describe the significance of valve prosthetic hemodynamics, durability, and impact on survival
- Identify different methods of measuring function for prosthetic valves
- Explain current designs of transcatheter and surgical prostheses and relation of the design to function

ACCREDITATION

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of *CMEsolutions* and Cardiovascular Innovations Foundation. The *CMEsolutions* is accredited by the ACCME to provide continuing medical education for physicians.

The *CMEsolutions* designates this enduring internet activity for a maximum of 1 *AMA PRA Category 1 Credits*.™ Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Start Date: December 7, 2021

End Date: December 7, 2022

FEES

There is no registration fee for this activity.

PARTICIPATION REQUIREMENTS

1. Participate in webinar
2. Login to: <https://online-med-edu.com/cvi2021/webinar/science/1272021/>
3. Complete the Evaluation/Credit Request Form
4. Download or Print Credit Statement

FACULTY AND DISCLOSURES

CMEsolutions requires everyone in a position to control the content of this activity to disclose any relevant financial conflict of interest they may have as related to the content of this activity. All identified conflicts of interest are thoroughly vetted by *CMEsolutions* for fair balance, scientific objectivity of studies mentioned in the materials or used as the basis for content, and appropriateness of patient care recommendations. *CMEsolutions* has mitigated all conflicts of interest prior to this educational activity.

Nadira Hamid, MD

Assistant Professor of Medicine, Columbia University Irving Medical Center
New York, NY
No relevant financial relationships to disclose.

Omar Khalique, MD

Associate Professor of Medicine; Director of Multimodality Cardiac Imaging, Columbia University Irving Medical Center
New York, NY
Has disclosed the following relevant financial relationships: Abbott, Edwards-Consultant

Paul Sorajja, MD

Cardiologist, Minneapolis Heart Institute
Minneapolis, MN
Has disclosed the following relevant financial relationships: Admedus, Teleflex, WL Gore-Consultant; Abbott Vascular, Boston Scientific, Medtronic, Edwards Life Sciences-Consultant, Research Grant

Michael J. Reardon, MD

Allison Family Distinguished Chair of Cardiovascular Research, Department of Cardiovascular Surgery, Houston Methodist Physician Organization
Houston, TX
Has disclosed the following relevant financial relationships: Medtronic, Boston, Scientific, Abbott Medical, Anteris-Consultant

Alan Zajarías, MD

Co-Director Center of Valve Disease, Washington University School of Medicine
St. Louis, MO
Has disclosed the following relevant financial relationships: Admedus, Boston Scientific, Edwards Lifesciences-Consultant

Planner Disclosures

No member of *CMEsolutions* or Cardiovascular Innovations Foundation has any relevant financial relationships to disclose.

Off-label Use

This activity may contain discussion of unlabeled and/or investigational uses of agents not approved by the FDA. Please consult the prescribing information for each product.

Commercial Support

Commercial Support for this educational activity will be provided by Anteris Technologies.
