

STEP BY STEP APPROACH TO DEEP VENOUS ARTERIALIZATION

THURSDAY, DECEMBER 7, 2023

8 PM CT / 9 PM ET

CME INFORMATION

TARGET AUDIENCE

This activity has been designed to meet the educational needs of cardiology interventionalists and allied health care workers who participate in the care of patients with coronary, peripheral, and structural cardiovascular diseases.

EDUCATIONAL GOAL

This educational activity is designed to provide participants responsible for the management of patients with coronary, peripheral, structural, and arrhythmic cardiovascular diseases with case-based examples of novel treatment in these diseases.

LEARNING OBJECTIVES

- Determine important factors in patient selection for deep venous arterialization
- Evaluate clinical approaches, managing complications and trouble-shooting techniques in deep venous arterialization
- Recall post-op care, wound care, management and outcomes of the salvaged limb
