

NAIL IT WITH NADIRA: TRANSCATHETER TRICUSPID REPAIR IN CIED RELATED TR

DECEMBER 20, 2024 – DECEMBER 20, 2025

CME INFORMATION

TARGET AUDIENCE

This activity has been designed to meet the educational needs of cardiology interventionalists and allied health care workers who participate in the care of patients with coronary, peripheral, and structural cardiovascular diseases.

OVERVIEW

This educational activity is designed to provide participants responsible for the management of patients with coronary, peripheral, structural, and arrhythmic cardiovascular diseases with case-based examples of novel treatment in these diseases.

LEARNING OBJECTIVES

- Describe the definition of CIED related TR
- Discuss considerations of tricuspid percutaneous options for patients with CIED related TR and highlight gaps in knowledge to guide clinical practice because of limited experience in this cohort of patients
- Describe the role of transcatheter tricuspid repair in CIED related TR patients and patient selection
- Review tips and tricks of transcatheter tricuspid repair in CIED related TR
- Describe the management algorithm and emphasize the importance of a multi-disciplinary team which should include an electrophysiologist for patients with CIED related TR
