Cardiovascular Innovations 2027
Poster Abstract Presentation FAQ

LOCATION

All poster sessions will be held in a Poster Presentation area in the Exhibit Hall.

ELIGIBILTY

- All, other than CVI faculty, are welcome to submit research abstracts
- **Only submitters who are students, residents, fellows or early-career physicians (5 years or less in practice) are eligible for travel grants**
- Submitters may submit a maximum of two (2) abstracts across all categories

SELECTION

Abstracts will be selected either as **"Scheduled"** with a day and time or as **"Digital"** with **no scheduled time**. To provide as many travel grants as possible, the Digital abstracts, those deemed high caliber but for which we did not have enough time slots for presentations, are consider accepted, but do not have a presentation time. The posters will be included in the digital kiosk and conference app.

Digital abstract submitters are welcome to use the kiosk to present their abstract to colleagues when scheduled abstract presentations are not taking place.

LOGISTICS

Posters will be presented in a small theater setup during main session breaks. There will be a monitor and podium with a touch screen interface. Each scheduled session will have a page that lists the included abstracts in order for the session. An alphabetical directory of abstracts will also be available.

The moderator will coordinate the presentations according to an assigned order. Accepted abstracts will be assigned a day and time prior to the event. The schedule will be forthcoming closer to CVI.

You will have 5 minutes to present your poster. The Moderator may ask you questions.

POSTER PREPARATION INSTRUCTIONS

- Posters will be DIGITAL only. You will submit your abstract in the submission portal. This does not need to be your final poster.
- Selected abstracts presenters will be provided portal access to complete additional tasks in including uploading their final poster.
- The use of A.I. to design your posters is acceptable.
- You may update your poster in the portal up to 7/28. After that time, updates to posters should be emailed to tom@lovemanmedia.com.
- Posters should be formatted for screen, a 16x9 widescreen format provides the best view experience. Submitting a PDF preserves layout and fonts the best, although if your abstract contains a video, then you should submit the Powerpoint format.
- All posters should be designed to fit on a single page/slide. Including videos in posters may also be permitted.
- Please include a disclosure of faculty relationships and affiliations on the poster.

Questions? Contact Tom Loveman (tom.loveman@cvinnovations.org) with questions or technical support regarding the submission portal or file and video issues.
